SKILLS & INTERESTS

I am well-organized in managing different tasks in a timely manner. I am open to feedback and am constantly motivated to work towards the improvement of executing a certain task or skill. While interested in fields of communications, finance, and marketing, I am also highly interested in honing my skills in culinary arts, baking, and sketching. I am proficient in English and Tagalog, while knowledgeable in basic Mandarin, Spanish, and French. Being exposed to various cultures has also helped me to have a more global perspective and an interest to learn about different cultures and working with foreign individuals. Apart from this, I have a deep desire to learn more about social entrepreneurship and work in fields that involve social development in various sectors, particularly with food and environmental sustainability or the youth.
